

Joseph Angeles

(832)-792-7898 | joeangeles@comcast.net

Computer Scientist with a strong foundational knowledge in data structures, operating systems, and algorithms. Proficient in Java, Python, C++, and C, with experience in software development, version control, and collaborative projects. Demonstrated ability to integrate into pre-established teams and contribute to major initiatives.

EDUCATION

University of Texas at Austin

Bachelor of Science in Computer Science

Austin, TX

Aug 2020 - May 2024

PROFESSIONAL EXPERIENCE

Iron Mountain - Houston, TX

Imaging Production Specialist – October 2025 - Present

Sorted, prepared, and scanned hard-copy records while following all production procedures and completing the required internal documentation and tracking. Also indexing key data into multiple software applications and printing document control sheets for all records.

Baylor College of Medicine — Houston, TX

Intern | June 2022 – August 2022

Collaborated with a team of engineers to resolve mechanical failures and provide general maintenance and upkeep of the Baylor campus.

ACADEMIC PROJECTS

PintOS (Operating System)

- Developed a toy operating system with key features such as priority scheduling, system calls for user programs, virtual memory paging, multithreading, and a multi-level indexed file system.
- Collaborated with a team of 3 to design and implement the system, documenting design decisions throughout the semester

Machine Learning Final Project

- Utilized Python and Google Colab to clean, explore, and engineer features using the Pandas library to develop and train multiple ML models on a dataset of 5,000 entries to predict hotel booking cancellations
- Worked in a team of 4 to deliver the final project.

Certifications

[Comptia A+](#) | December 2025

Additional

Programming Languages: Java, Python, C++, C (1+ years)

Tools & Technologies: Git (2+ years), Unit Testing
